Tempe News Notes

TEMPE GINS BEGIN TO TURN TODAY

With a short run ahead, the gins at the Tempe cotton plant will begin to turn today and the 1916 season will have had its start in this district. Picking has been under way since the first of the month, but the cotton still continues to come in slowly and the present supply will not likely tide the gins over for a run lasting longer than this week.

The Tempe gin is again under the supervision of W. H. Williams this year. Many others of last year's force are back and with the machinery in tip top shape and the old crew at work, an extra good season's run is anticipated.

This is the cotton grower's year in the Salt River valley and though the average is small, top notch returns are expected. The cotton stands are good and while the season is still early, good yields are promised. The market price is the best ever secured for valley cotton.

TRANSFER and baggage. Buck's Livery, Tempe—Adv. 10-12

ENDORSE MUNICIPAL TREE
Looking for into the winter season, when the weather will be all of a distinct contrast to that of the present, the municipal association devoted several hours of its time yesterday morning to a consideration of the municipal Christmas tree idea. The movement was heartily endorsed but rather than back the idea, the association is going to call a meeting of representatives of every lodge, club, and other organization in Tempe and ask them to choose a community committee to proceed with the movement.

MOTORCYCLE and side car. Good condition. First \$100.00 takes it. 25 E. Sixth St., Tempe—Adv. 10-12

SOLDIER BOYS
In the midst of its busy hour last evening, all Tempe came to a standstill, while twenty or more auto trucks carrying soldier boys from the front, rushed through town. Autolists and other vehicles and pedestrians cleared the street in favor of the soldiers as they sped through town.

A & V CHANGE
Purchasing a half interest in the A & V Machine Works of East Tempe.

Welding, Radiator Repairing
RADIATOR, lamp, fender, windshield repairing, glass replaced. Oxygen welding and brazing. Arizona Radiator Repair Shop, 4 W. Van Buren. 10-12

pe, Carl Anderson, for a number of years assistant engineer at the Tempe pumping plant, yesterday joined the ranks of the business men in Tempe. His interest in the firm was secured from John Vanebo, who is contemplating a trip either to the coast or to the mining district about Prescott and Jerome.

FURNITURE and household goods for sale. 25 E. Sixth St., Tempe—Adv. 10-12

LAND DEAL
A real estate deal of interest to local land owners occurred recently whereby J. H. Johnson becomes the sole owner of the 500 acre ranch situated between here and Chandler and formerly belonging jointly to C. G. Jones, J. E. Peck and Mr. Dobson.

Dobson secured his sole interest in that tract through an exchange with the other two gentlemen of the share he had in a similar tract located north of the river. Peck and Jones now own that piece of land.

OFF TO THE MINES
L. D. Crook, V. L. Cartinhorst and R. E. Williams, all three gentlemen interested in the Humdinger group of claims near Reno Pass, left yesterday morning by automobile for a week's stay in that vicinity. The Roosevelt Lake Copper company of which Williams is president and in which many local men are stockholders are now interested, is controlling this group now and plans are underway for an early development of the property.

K. P. SESSION
Another interesting session of the Knights of Pythias lodge will be held tonight with the new chancellor, commander, E. A. Bow, in the chair.

Mesa News Notes

MESA IS HOPEFUL OVER R. R. PROSPECT

The Republican of yesterday caused a buzz of excitement when Mesa readers read the item about the Mesa-Chandler road featured on the front page. The news spread and before noon every one was discussing the possibility of the road being built and its advantages to Mesa. For some days a mysterious band of surveyors have been busy east of town and have run lines from a point on the Roosevelt road in a northeasterly direction, crossing the river at Granite Reef. The engineers had nothing to say, and even acquaintances of one of them were unable to get a word. All supplies were paid for in cash and there was no way to unravel the mystery until the Republican made it clear. A gentleman living here and who is in position to know, states that about two years ago a friend of his accompanied a party over practically the same route outlined. The trip was made with a view to looking up the mining possibilities of the

country passed through, making numerous notes of mineral locations and securing data as to the topography of the country in order to approximate the cost of constructing a railroad that would tap the valuable mineral and agricultural belts along the Verde valley.

There are a number of excellent mining properties which doubtless would be developed at once. Owing to the inaccessibility of the country little or no development of the natural resources of the mountains has occurred. A railroad would change all this.

NEW RESIDENT
George Ethridge of Lordsburg, N.M., an old friend of Mr. Fellows who lives near here, came in a few days ago and looked over the country. He was so well satisfied that yesterday he purchased from Orson Brimhall, ten acres of land and will send for his family. Mr. Ethridge had been in correspondence with the commercial club for some time, and found the literature that had been sent him, in no way an exaggeration as to the opportunities in the Salt River valley.

MRS. HOLLADAY ILL
Mrs. M. P. Holladay has been quite ill for several days with a threatened attack of appendicitis. She was resting somewhat easier yesterday.

CLUB MEETS TONIGHT
The Mesa Commercial Club will hold its regular monthly meeting tonight. It will be "Community Loyalty" night with five minute talks by the following members: J. V. Lee, "Mesa Natural Advantages"; H. L. Chandler, "Prosperous Stores as a Community Asset"; G. S. Stanley, "How to Encourage Loyalty to Home Merchants"; Geo. A. Johnson, "Local and Nearby Resorts as a Drawing Power"; R. E. Steele, "How Merchants May Encourage Loyalty Among Themselves." There are several matters of business to be brought up and a full attendance of members is expected. Meeting at 7 p. m. at American Kitchen.

NEW VETERINARY SURGEON
Dr. J. R. Gray and family have arrived in Mesa and are domiciled at 147 S. McDonald street. One son is with them, the other being at the university at Tucson. Dr. Gray comes highly recommended in his line.

BEVILLE BUSY
Mayor Paul Beville defeated for reelection the nomination by a narrow margin. His loss neither his genial smile nor his boundless energy. Now that the strenuous campaign is over, he has turned his attention to repairing, repainting and painting up the house which is located on his 2 1/2 acre tract at the corner of East Second Ave. and S. Howard St. When the work is complete, the house which hitherto has been rent property, will be occupied by the mayor's family. The acreage will be set to alfalfa, leaving a large plot on the corner for a rose garden and the frontage with appropriate shade trees and lawn.

MARKET NEWS
By R. Allyn Lewis

The market in rails is fairly steady. Do not overlook Western Union. There are a number of tobers on the list, C. & O. especially. We have been talking about this stock from 40 up. Big steel business, big copper business, big gold imports.

2,500,000 more gold imported today. Hide & Leather preferred acts same as it did around 51 and 52. Looks as if next move might be 51 to 52. We are told by people who put us in American Writing Paper preferred at 29 to buy it for a big turn. On merit Chesapeake & Ohio, it should sell much higher. We think this stock is a second Norfolk and we expect it to go on dividend list in December.

Long wheat coming on the market on every little bulge.

Steele not coming out on the reaction. Looks as if we would get another buying movement in the rails.

A good many people think that the railroad 8-hour law will prove a boomers to financial men. They will have to work eight hours, where they have been working four.

The general trend of the market remains upward. Declines are therefore not natural reactions to remedy technique. The leading rails N. Y. C., U. P., Reading, the prominent steel, standard copers, Inspiration's offer good buying opportunities on reaction.

Western Union is pulled very strongly in pool characters.

J. S. Eche & Co.—The bull market of 1915 was more speculative than this one, because there was no general idea then the war would last so long.

T. L. Watson & Co.—The cheapening of copper by means of increased production cannot fail to expand its use later.
